## DEATH CLAIMS VETERAN WHO FOUGHT HERE

Henry W. Maurer, Dauphin county's last Civil War veteran, died Thursday at the home of his daughter, Mrs. Samuel H. Miller, Wiconisco. He was 100 years old.

Born in Gratz, December 28, 1846, Maurer resided in Steelton for 46 years, moving to Wiconisco to live with his daughter seven years ago. He worked for 25 years for the Pennsylvania Steel Company.

He attended the Blue and Gray reunion here in 1938.

Enlisting in the Union Army at the age of 17, he served in the 26th United States Infantry, the first regiment to meet Lee's advance outside of Gettysburg. He also served under General Sherman in the famous march across Georgia to the sea.

He saw action in several other historic battles of the Civil War. In one, the battle of Waynesboro, Ga., he nearly lost his life. Seeing the gun of a Confederate soldier pointed straight at him from a nearby barricade, he swerved his horse and the bullet struck and killed the animal.

### Active in Guard

After the war he became an active member of the Pennsylvania National Guard. For many years he served as marshal of Memorial Day parades.

## PROSECUTION OF ADAMS APPLE BY STATE IS ASKED

A letter of complaint has been filed with the State Sanitary Water board by Attorney Daniel E. Teeter, representing several upper county residents and sportsmen, charging that the Adams Apple Products corporation, Aspers, has violated an order of the board issued October 2, and effective October 6, by continuing to pollute Opossum creek below its plant in Aspers.

The letter, mailed to the water board December 10, asks that a public hearing be called on the complaint, and that the case be certified by the water board to the state attorney general's office for prosecution in the Adams county court of quarter sessions. Teeter said prosecution was being requested under the state's anti-pollution law as a misdemeanor, carrying a penalty of \$100 to \$5,000 fine upon conviction.

Sportsmen and residents along Opossum creek complained to the water board on September 30 that on and about September 10 the canning company polluted the creek by allowing its lagoons to run over into the creek, making the water unfit for use by stock, polluting wells and killing hundreds of fish.

### Dead Fish "By the Bushel"

According to Mr. Teeter, John S. Ogden, fish warden, took samples of the water in the creek, and an investigation was conducted by the Sanitary Water board which showed "pollution of worse than normal sewage density" below the Aspers plant.

Mr. Teeter said the investigations and complaints of the residents resulted in the October 6 order. In their new complaint, the sportsmen and residents contend Mr. Teeter said, that Adams Apple "deliberately violated the order by permitting their lagoons to run over," and the attorney further declared that this condition has existed for a number of years past, in spite of efforts to have it stopped.

Pollution, it is claimed, was allowed to drain from the lagoons by way of a ditch into the creek, and that during the tomato canning season the ditch and the creek when the ditch empties into it "ran red," and that dead fish could be scooped up "by the bushel." Pieces of apples, tomato peels and rotten apples were found in the ditch and at the mouth of it," Teeter said.

## AWARD DOCTOR \$400 DAMAGES

Dr. William A. Boyson, Mechanicsburg physician and a graduate of Gettysburg college, was awarded \$400 damages by a Cumberland county common pleas court jury for injuries sustained on June 13, 1946, in an altercation with Joseph Richard Hanna, Upper Darby.

Dr. Boyson, who sought \$25,000 for the injuries which he claimed had left him partially disabled, was stabbed in the abdomen by Hanna after he chased several boys away from a cherry tree on his property. Hanna had objected to the physicians' treatment of Francis H. Wilson, Mechanicsburg, one of the boys who was on the cherry tree. In the ensuing argument the stabbing took place.

Hanna testified that the stabbing was not intentional, that he had drawn a small pocketknife merely to frighten Dr. Boyson. He said that the doctor kicked him and that he threw up his left hand to ward off a blow, involuntarily striking the doctor. Hanna had the open pocketknife in his hand. He said that he did not know until some time afterward that he had actually stabbed Dr. Boyson. He said there was no blood on the knife.

Dr. R. M. Shepherd, Carlisle, who performed an emergency operation on Dr. Boyson, testified that the knife had penetrated the physician's abdomen from two and one-half to three inches. Dr. Boyson was confined to Carlisle hospital for 12 days as the result of the injury, testimony revealed.

## Crowds Chanting Red Hymn Charged By Police In Rome

Rome, Dec. 12 (AP) — Jeep-borne police riot squads, swinging clubs, charged surging crowds today in the heart of strike-bound Rome, as throngs chanted the Communist anthem "Red Flag."

Police quickly cleared the crowds, in the Piazza Colonna, from their concentration point below the windows of the Italian foreign office. The crowd gave way, jeering and hooting.

Two Associated Press photographers from the United States, J. Walter Green and Frank Noel, were struck on the head by police clubs, but suffered no serious injury. They continued working after identifying themselves.

Rome's general strike, now in its second day, appeared to have loosened its grip somewhat, despite the determination of the Communist-controlled Chamber of Labor to pursue it to the bitter end. Strong-arm police measures weakened the strikers' effectiveness as Premier Alcide de Gasperi's Christian Demo-

## Jewish Commandoes Kill 12 Arabs In New Offensive

Jerusalem, Dec. 12 (AP)—Jewish commandoes attacked the village of Tihah near Haifa today with grenades and automatic weapons, killing 12 Arabs and wounding six. This brought to 185 the Holy Land death toll since partition was voted.

The best available information was that the Jewish groups were squads of the Irgun Zvai Leumi and Stern group. They went into action from Haifa to Hebron.

Some authorities expressed belief that Jewish bands appeared to be opening a widespread offensive against Arab masses opposing a division of the country into Jewish and Arab states.

Counting earlier communal casualties in Aden and Syria, the Middle East death toll in 13 days had mounted to 301. Hundreds were wounded. Property damage in Palestine was estimated at above \$10,000,000.

British troops in steel helmets and police armed with automatic weapons moved into the Jerusalem old city during the morning where thousands of Arabs gathered at mosques near the walled Jewish quarters.

A police recapitulation showed 108 casualties in combats during the 24 hours ended at 8 a. m. today. The official tally showed 25 Arabs and 12 Jews killed. Wounded were 49 Arabs, 18 Jews, one Briton, one Mauritanian and two auxiliary policemen.

In a bomb attack on an Arab bus company at Ramle, 22 vehicles were reported demolished. In the Jewish attack on Tihah, a house was demolished and a dozen others were damaged and set afire.

Six grenades exploded in Jerusalem's Princess Mary avenue and four or five explosions, followed by gunfire and flames, beat the dawn to the tense Ramle-Rehovot-Jaffa triangle. Four Arabs were killed and 10 wounded in a Jewish grenade and Sten gun attack on the Arab village of Tira, near Haifa. A house was destroyed and several others were damaged.

## Pauley Says Truman Didn't Know Of His Speculations

Washington, Dec. 12 (AP)—Edwin W. Pauley testified today that neither President Truman nor Secretary of Agriculture Anderson could have known when they criticized speculators that Pauley was operating on the commodities market.

Pauley, a special assistant to Secretary of the Army Royall, made the statement before the Senate Appropriations Committee as he testified he is \$100,000 worse off because he started selling his holdings in commodity futures after taking over the post last September 3.

Mr. Truman in a radio address October 5 criticized the "greed of speculators who gamble on what may lie ahead in our commodity markets." Later, in laying his 10-point anti-inflation program before Congress, the President asked legislation to regulate speculative trading on the exchanges.

Pauley testified he held "something less than a million dollars" worth of commodities when he took the army post.

In a statement to the committee he said that he had "liquidated approximately 90 per cent of those commodities, reducing my holdings of grain from 500,000 bushels to approximately 50,000 bushels."

Later he told the Senators that he "did rather well" in commodities trading this year.

But he denied, under questioning by Senator Ferguson (R-Mich.), that President Truman could have "conceivably" known of Pauley's activities on October 5 when Mr. Truman declared that the cost of living must not be a football kicked around by gamblers speculating in the market.

Reading a brief prepared statement to the Senate Appropriations Committee, Pauley said that he has sold nine tenths of his holdings and none of his army connections had been used in his tradings.

Pauley, whose last run-in with Congress brought about Harold Ickes' resignation from a cabinet job yesterday was ordered by Chairman Bridges (R-NH) to tell the committee about his grain dealings.

The former Democratic national treasurer acknowledged his trading in advance of his appearance, but insisted the transactions have been "perfectly proper and ethical."

The Californian, who took over the army post September 3, described his dealings as a hedge against inflation. He added that more people ought to be buying commodities for the same reason.

## LANE PICTURE IS "PRINT OF YEAR"

A Walter Lane picture of a choir-boy was selected the "best print of the year" by judges at the annual ladies' night dinner-meeting of the Gettysburg Photographic society Thursday evening at the Ramblers inn, near York.

A character portrait of Mrs. Edward Stine by her husband placed second and an entry by Edmund W. Thomas, Jr., was given third place. The judges were Paul A. Kinsey, Harrison Mueher and George Lamprecht, all of Reading. About 50 pictures, made by members of the society this year, were judged.

In the regular monthly print exhibit of 15 new prints by members, two entries by Maurice Stoops were given first and second positions by the votes of the members of the society while pictures by Dr. Frederick Tilberg were placed third and fourth. Votes of the 14 guests gave Stoops first place, Tilberg second, Dr. C. A. Sloat, third and Stoops fourth.

Nine members of the society, their wives and other guests enjoyed a turkey dinner with Mr. Kinsey, the society's honorary president, acting as toastmaster. ## COUNTY SCHOOL DIRECTORS HEAR STATE OFFICIAL

Raymond W. Robinson, chief of transportation and consolidation in the state Department of Public Instruction, termed act 361 of the 1947 legislation "the most democratic piece of legislation that has ever been passed concerning schools," in an address before the Adams County School Directors' convention today at Arendtsville. The act provides for the setting up of county-wide and state-wide school organizations and provides that the proposed reorganizations on a county level will be voted upon by the general public.

Under the act, Robinson said the state Council of Education is directed to determine what will be the best type of school setup possible in the state. The county boards are directed to apply that pattern to the situation in their county. That plan must be completed before next July after which the plan in each county will be voted upon by the people.

### "Small Schools Going"

Robinson said that the days of the too small school system are numbered. He said that the legislature in recent acts is seeking to grant an equal education opportunity to all and the small districts and small schools cannot provide sufficient educational opportunities to carry out that intention. "Whether we like it or not small schools are going out," he added.

He said over 500 small schools in the state closed during the past year.

Robinson added that the old eight-four system is rapidly being replaced by the six-three-three year system. He said "what we are seeking to do is improve the schools rather than retain the status quo."

### Kessinger Speaks

Harold C. Kessinger, Ridgewood, N. J., said that the world's only salvation is an international government. "The only thing history has taught so far is that we do not learn from history. We have gone from war to war, each one becoming more terrible because nations have refused to give up their right to wage war," he said.

"There are three roads ahead of us, isolationism, which leads directly to the next war; a balance of power, which will postpone but will not do away with the next war, or international government. There are many who say today that the United (Continued on page 2)

## FERTILIZER AND SEED SHORTAGE EXPECTED HERE

County Agent M. T. Hartman and Assistant County Agent Ira N. Dunmire today warned farmers in the county that shortages of both fertilizer and seeds may be expected next spring.

Cause for the lack of nitrogen and potash, in which shortages are expected next spring, is not due to lack of production but to the demand for export, difficulty of getting transportation of potash from New Mexican mines and the tremendous increase in demand and use of fertilizer stimulated by high crop prices, the county agents said.

Concerning the seed situation, they said that the best varieties and highest quality may be gone by next spring, or there may be none available at all.

### Short Supplies Now

Clover and alfalfa seed supplies are rather short, especially clover, Hartman said, and much seed of inferior quality and of uncertain adaptation will in all probability be sold to meet the demand. Ladino clover seed is in great demand, he added, stating that "the safest way to be sure of getting pure Ladino instead of the cheaper white clover is to specify certified seed."

"Seed of the better varieties of oats, such as Clinton and Benton, will not be available in sufficient amounts although there are considerable quantities to be held locally and from seedmen. Ajax is a good substitute. Some of the earlier hybrid corns nearly always are in short supply, and the reduced yields and poorer quality in the mid- (Continued on page 3)

# Hope To Evacuate Plane Survivors

Westover Field, Mass., Dec. 12 (AP)—Brightening weather over Labrador brightened the prospects today for evacuating the remaining three army men who survived a crash of a transport plane that killed 23 others Tuesday night.

Three of survivors—none seriously injured—were flown out of the icy wilderness in an air transport command helicopter yesterday to Goose Bay. They will be transferred to Walter Reed hospital, Washington, D. C.

A light snow fell this morning in the region but meteorologists said it was not severe enough to prevent flying. The mercury dropped to eight degrees during the night, but rose to 18 at 7:30 a. m. (EST).

First report from a survivor attributed the crash to a power failure and said the big ATC plane "seemed to come almost to a stop in mid air" before plunging earthward.

# Ex-Marine Denies Three 'Confessions'

Philadelphia, Dec. 12 (AP)—A 22-year-old former Marine combat veteran vehemently denied three purported "confessions" in which he allegedly admitted slaying his 11-year-old niece on a vacant lot here last September 6.

The denial of the "confessions" by George Neill, who returns to the stand today, climaxed the fourth day of his trial yesterday for the murder of Isabella Mallon.

Under direct examination by Defense counsel Harry M. Berkowitz, Neill testified that following his return here from Rockville, Md., where he was arrested, he "talked" because he was kicked and mistreated by police during questioning.

# Wallace Predicts Win For Eisenhower

Albany, N. Y., Dec. 12 (AP)—Henry A. Wallace predicted today that Gen. Dwight D. Eisenhower would be elected president if nominated by either major party next year.

"If nominated, he will unquestionably win, no matter what party nominated him," the former Democratic vice president said at a news conference.

Wallace said he believed Eisenhower, soon to retire as army chief of staff, was "less of a war candidate" than either President Truman or Gov. Thomas E. Dewey of New York.

# ANTI-INFLATION PLAN OUTLINED

Washington, Dec. 12 (AP)—Specific proposals for price ceilings and roll backs under President Truman's request for standby anti-inflation powers were submitted to Congress today by Secretary of Labor Schweilenbach.

Replying to Republican demands that the administration spell out its anti-inflation program, Schweilenbach said price controls would be limited to commodities that basically affect the cost of living and which are essential items; that are basic to the costs of agricultural and industrial production, and essential to effectuation of the foreign policy of the United States.

Moreover, Schweilenbach said a maximum price should be set only when the commodity is found to be in short supply, or the price of such commodity has risen unreasonably above the price prevailing in June, 1947.

Maximum prices lower than the highest price prevailing between June 11 and June 18, 1947, may be established under Schweilenbach's proposals to make allowances for decreased costs or market declines.

# COUNTY SCHOOL

(Continued from Page 1)

Nations is nothing but a debating society but that is where we began. The Continental Congress was merely a debating society yet out of that debating society grew the United States which has withstood depressions, wars, panic and today stands as the country with the highest standards of living in the world."

He also prophesied that the United States would enter a depression in about eight years. "After war," he said, "there has been a depression and the extent of each depression has been determined by how great the war was." As this was our greatest war he said he feared if we did not do something we would have our greatest depression.

The directors this afternoon were voting for two men to be named to the county board, one auditor, two delegates to the State School Directors' convention and two alternates to that convention.

The following were nominated by the nominating committee shortly after noon: County board—John W. Lurabaugh, Berwick township; George W. Moul, East Berlin; R. M. Martin, Biglerville; John A. Cease, Hamilton township; auditor—Willis O. Waybright, Mt. Joy; J. F. Kanagy, Butler township; delegates—William M. Lott, Huntingtown township; H. S. Reigle, McSherrytown; Russell L. # SEEK REMAINS OF FIRST APE

Cairo (AP)—Along a rugged desert escarpment some 50 miles southwest of Cairo, where erosion has exposed ago-old alluvial deposits containing many fossils, the University of California's African Expedition has begun a search for remains of Propliopithecus, the earliest known ape, which some scientists consider a possible ancestor of man.

The escarpment north of the Lake of the Horns at Fayum, Egypt, was chosen for the search because it is rich in fossils, and because the only previous trace of Propliopithecus—half of his lower jaw and the teeth to match—was found in this region about 40 years ago.

Members of the expedition, who have established their base in a house of the Egyptian Antiquities department beside the Pyramids of Giza, recently completed an initial three-day reconnaissance of their hunting ground.

Washington, Dec. 12 (AP)—The House Labor committee called on the Justice Department today for prosecution of "offenses in violation of the Act," which was designed to restrict the activities of James C. Petrillo's American Federation of Musicians.

In a report criticizing what it called Petrillo's "tyrannical power," the committee recommended also: 1. Consideration by the Justice Department of whether "the monopolistic practices of James Caesar Petrillo and the American Federation of Musicians are subject to prosecution" under the Sherman Anti-Trust Act; 2. That the Taft-Hartley Labor Law be amended "so that monopolistic practices by labor unions which are injurious to the public interest shall be forbidden"; 3. # Library Services To Be Surveyed

Harrisburg, Dec. 12 (AP)—A survey of existing library services in Pennsylvania has been ordered by the General Assembly's Joint State Government commission.

Senator Weldon B. Heyburn, commission chairman, said a sub-committee headed by Sen. Fraser P. Donlon (R-Lackawanna) would check on all public libraries and also list library facilities available in public schools.

Donlon said the committee had learned that library service in the cities and towns is "pretty good," but that many persons living in rural areas are unable to make the trips into the cities and towns.

"The main problem we must face is providing library service in the country district," said Donlon, pointing out that it may be possible to establish libraries in the public schools that will be open to both the public and the school children.

## GIANT-KILLERS PREPARE AGAIN FOR BIG TEAMS

Pittsburgh, Dec. 12 (AP)—Duquesne university, the little school whose grid squads once were called giant-killers, has served notice on the world that it intends again to become "one of the leading teams in America."

The Very Rev. Francis P. Smith, president of the school, said so last night before a crowd of more than 400 at a banquet honoring Duquesne's first post-war team—a team which won its first two games last fall only to lose the next eight in a row.

"We're always going to play big-time football or we're not going to play at all," declared Father Smith. "Our philosophy is this: 'Take a chance with the best—or play none of them.'"

This year's team wasn't the worst Duquesne ever had. Back in 1925 the Dukes won only one game. And the 1947 squad yielded to some mighty tough foes—Bowl-bound Alabama and Maryland University, for example, along with such strong teams as Mississippi State, Clemson and Wake Forest.

**Remember Better Years**  
Duquesne supporters, torn by this year's sorry show, solace themselves with memories of the great years of 1929 and 1939 when Duquesne was undefeated, and 1941 when Coach Ido (Buff) Donelli's eleven was neither beaten nor tied.

They remember Coaches Elmer Layden and John P. (Clipper) Smith sending teams to the Orange Bowl in 1933 and 1936 to down Miami 33-7 and Mississippi State 13-12. Particularly they relish thought of 1936 when the Dukes whipped the Pitt Panthers in the mud 7-0 just a week before Pitt trounced Notre Dame 26-0. Pitt went on to the Rose Bowl and ran roughshod over the University of Washington 21-0. It was that year Duquesne saw its center, Mike Basrak, named All-American.

## EAGLES SHY 3 IN BACKFIELD

Philadelphia, Dec. 12 (AP)—The badly battered Philadelphia Eagles head into Sunday's "must" game against the Green Bay Packers with only four of the seven halfbacks that started the season available for heavy duty.

Coach Earle (Greasy) Neale will have at his beck and call only Steve Van Buren, Ernie Steele, Russell Craft and Pat McHugh in a game the Eagles must win to tie the Pittsburgh Steelers for the eastern division championship.

Bosh Pritchard, one of the several Eagles injured in last Sunday's game with the Chicago Cardinals, reported for practice yesterday for the first time this week but Neale expects to use him only in spots if at all. The former Virginia military institute ace suffered an injured leg.

Gil Steinke and Noble Doss, who completed the ranks of the halfbacks at the opening of the season, definitely are out along with Bill MacKrides, third string quarterback who has been coming along fast in the past few weeks.

"We are so hard up," said Neale, "that I have told Al (Lefty) Sherman to be ready to fill in at one of the halfback spots." Sherman is the No. 2 quarterback behind Tommy Thompson.

## BULLET MATMEN FACE LEOPARDS THIS SATURDAY

Gettysburg college's wrestling team will open its season Saturday when it engages the Lafayette grapplers at Easton.

Coach Clyde Cole has a squad which includes 10 lettermen, five of whom are listed to take part in the coming meet.

Today Coach Cole indicated his probable lineup as follows: 121 pounds, Graham McCutcheon; 128, Dick Dodds; 136, Ted Lenker; 145, Joe Erb; 155, Russ Reigel; 165, Lance Sault; 175, Johnny Keller, and heavyweight, Charles Reider. The lettermen in the group are McCutcheon, Lenker, Erb, Reigel and Reider.

Dick Sassaman, letterman, 145-pounder last year, has been hampered in workouts due to an injury. Jim Way, another letterman, and Bob Unger are battling Sault for the 165-pound event. Nels Gibble, 175, letterman, is still overweight while Sammy Schmittner, 121-pound letterman, just reported this week following the soccer season. Dick Binder, 165, another letterman, has been hampered in rounding into condition to an injury received in touch football.

Among the more promising candidates is Chester Hoke, 121, of Hanover.

## HOPE GIVEN TO PACIFIC TEAMS

New York, Dec. 12 (AP)—The expansion of major league baseball to other territories is a virtual certainty during our lifetime, a high major league official prophesied today.

That prediction took some of the ache out of the hearts of the members of the Pacific coast league delegation who started their long journey back home with sad news that once again their request for major league recognition had been rejected by the major leagues.

The rejection came yesterday in the form of a resolution that gave promise of better things to come.

The coast league had requested either unconditional major league status or a rise in classification by increasing the draft price of its players from \$10,000 to \$25,000 and extending the draft eligibility from four to six years.

**Junior Loop Opposed**  
Although no announcement was made, the 10-club league proposition was a live subject on the floor of the joint meeting which closed out the three-day major league sessions. The National league is believed to have favored unanimously such a plan as the eventual solution of the coast problem and the American league was in opposition by a 5-2 vote with one member not voting.

The New York Yankees finally came out of their trading lethargy by swapping Outfielder Allie Clark to the Cleveland Indians for Pitcher Charles (Red) Embree.

In the second deal of the day, the Philadelphia Phils traded Pitcher Tommy Hughes to Cincinnati for Outfielder Bert Haas and a player to be delivered by next spring.

## WILL EXPAND GAME PROGRAM

Harrisburg, Dec. 12 (AP)—The state Game Commission announced today the Federal government has approved an expanded cooperative farm-game program for Pennsylvania which will cost \$125,000 in 1948.

Announcing the action will enable the commission to increase its farm-game lands from the present 300,000 to 500,000 acres. Commissioner Director Seth E. Gordon said the new program will be launched on January 1.

Under the program, farmers lease the hunting rights to the commission for a five year period and in exchange the commission gives advice on soil conservation measures and helps in contouring of fields and the planting of seedlings suitable for producing game feed.

Small refuges of several acres or more usually are erected on the farm for game while safety zone signs are posted within 150 yards of all occupied buildings. A fixed percentage of the land included, however must be left open to hunting.

Under the agreement with the federal government, 75 per cent of the cost of the program will be paid from the federal excise tax on sporting goods, guns and ammunition.

"It is another step toward our aim of placing 1,000,000 acres under the farm-game program," Gordon stated, adding the principal purpose of the program is to aid farm cooperators in applying proper land use practices which are beneficial to wildlife.

**FLEES FIRE, BREAKS L'G**

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Dec. 12 (AP)—Lobbying around the baseball meetings: Old Bobo Newsome arguing that Brooklyn's Rex Barney throws the fastest ball in the big leagues. He's faster than Bob Feller, who's past his peak. . . . Red Rolfe and Wish Egan saying almost the same thing about Detroit's Art Houtteman. "He'll last a long time," adds Wish. "He's only 20 years old and has a rubber arm." . . . Egan began needling Mel Ott about "that first baseman you stole from me." Bill Meyer and Joe McCarthy with their heads together at lunch. . . . Johnny Neun explaining how it will help Grady Hatton's hitting to play him in the outfield. Neun plans to use Eddie Miller at third for Cincinnati and Rookie Red Staloup at short. . . . Steve O'Neill and Chuck Dressen discussing pitching machines. O'Neill wants one with an arm the batter can see before the ball is delivered; Dressen holds out for a regular batting practice pitcher—protected by a net he can duck behind when those line drives come whistling back.

## NO DEAL

Managers Eddie Dyer of the Cards and Ben Chapman of the Phillies were playfully discussing trades the other day when Eddie mentioned Harry Walker, whom he sold down the river last season. . . . "I developed him into a league-leading hitter and now you want him back," Chappie retorted. "Sure I'll talk trade, but I won't give you a turkey for a sparrow—and dress the turkey."

## ONE-MINUTE SPORTS PAGE

Otto Graham, who'll pitch for the Browns (Cleveland) against the Yankees in the All-America conference playoff Sunday has completed touchdown passes in eight straight games. But in case you think it isn't football, the Yanks' Harvey Johnson has missed only three of 16 field goal attempts in two seasons. . . . Lew Fonseca reports the World Series movie, which will be previewed soon, is the best he ever has turned out. . . . That court duel between George (6-10) Kok of Arkansas and Larry (6-9) Foust of LaSalle in the Philly convention hall really should raise the roof.

By **GEORGE MATTHEW ADAMS**

**TEAM INTEREST**

I have watched many a thrilling football and baseball contest, and always it has been the concentration of team work that has impressed me. There have always been individual "stars" that often stand out to thrill the crowd, but the greatest organization is that one in which each player is devoted to the team. The winning of the team is more inspiring than the outstanding work of any one man.

Every day in life we see examples of team play. Only through team play can this war-torn and confused world be made over into one world. Bear and forbear are two great words, as Epictetus once stated. The great nations of this world can never bring about a just and lasting peace until there is unity of plan and purpose. In other words, team interest.

It was team interest that defeated Germany twice. And now it must be team interest, with the good of all nations, justly considered, that must write the peace that shall be permanent, or as nearly so as frail man can construct.

The most efficient organization of any kind is that one where each worker takes a personal interest and works as a team in that organization. If the various nations of Europe will but work for their own recovery, plus all that the other more favorable nations can give to them, then, in time, there can be a happy recovery. But there must be team interest.

We are always happiest, and we accomplish the most, when we are working with those who supplement our own efforts. No one can "star" alone! We are all dependent. This is something that we are apt to forget. The minutest part of a great machine is dependent upon the greatest, as is the greatest dependent upon the minutest.

Take the great orchestra. Just let the little piccolo player get out of tune and note how quickly the leader detects it. There must be perfect harmony. The orchestra must play as a team. That's what makes it great. How important, therefore, that each one of us plays his part in life with the good of all in mind. It makes happy homes, successful businesses, and will make a better world.

Tomorrow Mr. Adams will talk on the subject: "The Friendly Spirit."

**REMINISCENCE**

Time was—and it was long ago—  
My Nellie said she'd rather  
I'd get a final "yes" or "no"  
From her devoted father.

Said I: "We've set our wedding day.  
Our every action shows it.  
Why ask your father if we may?  
I'll bet the old boy knows it!"

She answered: "Father you must trust.  
No cause have you for dreading,  
But ask him for my hand you must,  
Or there will be no wedding."

We took a walk in early May,  
The afternoon being sunny.  
I said to him: "I know a way  
Henceforth to save you money."

The old boy questioned: "Tell me how,  
Before my answer 'yes' is?"  
I said: "Give me your daughter now,  
I'll gladly buy her dresses."

**Seek Cause of Mine Blast in Which 5 Died**

Wilkes-Barre, Pa., Dec. 12 (AP)—State and federal mine officials today began probing 1,000 feet underground to determine the cause of a blast that killed five men and injured two others at the Lehigh Coal company's colliery three miles from Wilkes-Barre.

More than 200 men were working in various sections of the anthracite mine when the blast occurred yesterday, including eight or 10 in the blast chamber.

The coal company identified those killed as Stephen Sillup, 47; Frank Chudlow, 55; Ignatz Skzynecki, 57; Roger Jones, 41, and Casper Pulask, 24. Those injured were Edmund Orjeski, 42, and John Casper, 25.

The U. S. Mine Department reported that several earlier recommendations for improved safety were repeated in the last inspection of the shaft last June, but added that no particularly hazardous conditions were reported.

Joseph Walsh, deputy Pennsylvania mines secretary, ordered a three-man commission to the scene to start an investigation.

One of the miners, John Gola, said his hat was knocked from his head 500 feet from the scene of the blast. Gola said he hurried to safety with others, but later returned to the shaft with rescue crews.

"We found the bodies of four men sprawled on the floor of the gangway," Gola said. "Some timbers which had been torn loose by the blast lay across the bodies. Car rails were twisted and wires were knocked down but there didn't seem to be any fire burning."

**Revelation 2:8-11; 7:9-17**

Memory selection: Be thou faithful unto death, and I will give thee a crown of life. Revelation 2:10.

The last three lessons of the quarter are based on the Book of Revelation and strike a triumphant note—victory of faith through trials and persecution. The first passages selected for this week's lesson give a picture of the Christian Church as "militant" and the second, the Church as "triumphant." Revelation, the last book of the New Testament, is difficult to understand because it is written in figurative, symbolic language hard for the average person to interpret. The Greek name for Revelation is the "Apocalypse" which means to reveal or uncover. It contains a promise for the future to the churches who remain steadfast in their faith in spite of persecution.

The Revelation of St. John the Divine is a communication which God gave to Jesus Christ and which Christ gave to John through his angel to be given in turn to the churches. So John is rather the recorder and Jesus the author. It is generally supposed to be a series of seven visions received by John while imprisoned on the Island of Patmos where he had been banished by the mad emperor, Domitian. The book is addressed to the seven churches of Asia Minor: Ephesus, Smyrna, Pergam, Thyatira, Sardis, Philadelphia and Laodicea. It was intended for the churches' comfort in time of persecution and a warning in preparation for the Second Coming of Christ. The churches received praise, criticism, rebuke, and condemnation according to their deserts. Only Smyrna and Philadelphia received much praise. Here we assume that the author of Revelation was John, the Apostle, which has been the tradition of the church since early times.

**Time of Apocalypse**

The Apocalypse, or Revelation, was probably written about 96 A.D.

## IN MEMORIAM

In loving memory of our dear wife and mother, Jennie Trostle, who departed this life on December 12, 1946.

One year ago today,  
Dear mother, God called you away.  
You do not know how we miss you.  
Your chair is vacant,  
But God knew best,  
And now you may rest,  
But your place can never be filled.

Your dear hands toiled,  
And you gave all you could give.  
Now your labors are over,  
And no more pain to bear, no more of sorrow.  
No more of earthly care.  
But still we all miss you everywhere.  
Your smiling face, your friendly ideals, will never be erased, or never replaced.

Rest on mother dear,  
In peace we pray.  
And when God calls us  
We may come your way.  
As He has promised a place to prepare.

For all of His children everywhere.  
By her husband, son and daughter-in-law.

## IN MEMORIAM

In memory of our dear grandmother, Mrs. Jennie Trostle, who departed this life one year ago today.

Oh, Ma, we miss you so.  
It seems so very long ago.  
Yet just one year ago today  
God called, and took you away.  
We miss you Ma, we miss your tender and loving care.  
We miss you everywhere.  
But this is our little prayer  
That God will guide us in His way  
And then we will meet you again  
Some sweet day.

By her grandchildren,

## Molotov Speech At London Awaited For Hint On Soviet Concessions In Germany

### RUSS DELEGATE MAY MAKE SOME EASIER OFFERS

By JOHN M. HIGHTOWER  
London, Dec. 12 (AP)—British and American officials speculated today whether the Soviet Union may be preparing to make limited concessions in its demands on Germany in an effort to forestall consolidation of the Western zones by the United States, Britain and France.

There have been no concrete developments yet to bear out this theory, but Western authorities at the Foreign Ministers' conference are looking forward with considerable interest to a major statement which Soviet Foreign Minister V. M. Molotov is expected to make today or tomorrow.

The only agreement of significance reached in this discussion was that if and when all Germany is unified the level of steel production should be set at 11,500,000 ingot tons per year. Steel output is measured on the basis of other German industrial production. (Total steel production in the United States this year is expected to reach about 85,000,000 tons.)

Marshall's Stand  
Molotov sought to have this tentative decision made final at once and applied to all Germany immediately by the Allied control council at Berlin. This is in line with his evident strategy to get at least some over-all agreement here which would provide a basis for new Russian insistence that the United States and Britain should stop operating their two zones jointly and exclusively of the rest of Germany.

Marshall and British Foreign Secretary Ernest Bevin successfully insisted, however, that any agreement on industry or any other single phase of German economy must be subject to a final over-all agreement on the actual economic unification of Germany.

Three Main Issues  
Three main issues thus far have developed in the east-west fight over unification. They are:  
One: Whether zonal barriers to free the flow of goods, people and ideas should be completely removed by the occupying powers for all the zones, as they have already been removed between the British and American areas.  
Two: Whether the reparations system can be worked out in a manner acceptable to both Russia and the Western powers. The Russians are demanding \$10,000,000,000 in reparations. Most of which would be paid out of German production over a

### SEES NEW ERA AHEAD IN COAL

Pittsburgh, Dec. 12 (AP)—James Boyd, director of the U. S. Bureau of Mines, says that production of synthetic fuels from coal may be bringing America to "the threshold of a new coal age."

In an address last night before the 61st annual meeting of the Coal Mining Institute of America, Boyd asserted:

"It is well known that the ability of the oil industry to meet the increasing demands for liquid fuels is becoming more and more difficult to maintain."

He said that although natural liq-

uid fuels have threatened coal's place for the last decade, "there can be little doubt that the peak has been reached. . . . It is unlikely that any other new source of power will compete seriously with coal in the energy markets of the world in the near future."

"Next year," he continued, "the bureau expects to have two plants in operation conducting large-scale experimentation on the synthesis of liquid fuels from coal at Louisiana, Mo. One plant will hydrogenate coal to produce high octane gasoline and the other will produce motor gasoline and diesel oil."

### TOOTH BRUSH TEST STARTED

Chicago (AP)—A two-year test with school children is expected to show just how effective careful brushing of the teeth is in preventing tooth decay.

The study is being launched by the University of Illinois College of Dentistry, and will involve 2,000 six and seventh grade youngsters in three downstate communities.

The children will be asked to brush their teeth at their desks each morning and afternoon, and after each evening meal at home and before going to bed. The amount of tooth decay will be compared with that in other children who will continue brushing their teeth according to their usual habits.

The tests also will study the effectiveness of three kinds of dentifrices. One is a new kind, developed at the college and containing ammonium compounds, which in limited tests has shown a sharp reduction in tooth decay.

JANUARY 15 IS TAX DEADLINE FOR ONE IN FIVE

By JAMES MARLOW  
Washington, Dec. 12 (AP)—Here's a reminder for taxpayers: Jan. 15, 1948 is a deadline on 1947 income taxes for one out of every five taxpayers. It's the deadline for those who haven't had the full tax, or any tax, withheld from their 1947 wages or income. In 1947 most people's income was from wages, and most of them had the full 1947 income tax withheld from them.

If you're in that group—the group from which full tax has been withheld—don't worry about Jan. 15. You'll have to make your final return March 15.

But—Jan. 15 is the deadline—if it affects you—for filing, changing and paying your declaration of estimated tax for 1947. (Some people think that deadline is Dec. 15. It isn't. It's Jan. 15.)

Who Must File  
Here are the people who must do something about their income tax by Jan. 15:

1. Farmers. In 1947 they have not had to do anything about the tax on their 1947 income. They must do it by Jan. 15, 1948. By that date they must figure their 1947 income—and the tax on it—and by Jan. 15 pay it in full.

2. Those from whose 1947 income no tax has been withheld, such as professional men like doctors, or landlords, and so on.

Last March 15—knowing no tax was to be withheld from their 1947 income—they estimated what that income and the tax on it would be.

And, beginning last March 15, they started paying that tax in quarterly installments. The last quarterly payment is due Jan. 15.

3. Those who had wages from which no tax was withheld, such as servants or farm workers. They must pay their full tax by Jan. 15.

Others On List  
4. Those who had full tax withheld from their wages in 1947 but received more than \$100 in outside income from which no tax was withheld.

5. Those who had some tax, but not all the tax due, withheld from their 1947 wages.

6. Those who have been making quarterly payments for the past year but under-estimated their tax by more than 20 per cent.

If you're one of those, you must make the correction and pay off by Jan. 15. There's a penalty, if you don't.

Final Return Mar. 15  
You can do it on Form 1040-ES or Form 1040. If you use Form 1040, it can stand as your final return on 1947 income. It will be easier for you.

If you use Form 1040-ES, you'll have extra paper work ahead, and for this reason:

On March 15 you'll have to file your final return on Form 1040 anyway, even though you file a return Jan. 15 on Form 1040-ES.

So using Form 1040, instead of 1040-ES, on Jan. 15 will save you the trouble of having to use Form 1040 on March 15.

(The people who don't come with in the six groups mentioned above will have to file their final return on March 15 or Form 1040.)

Iron was once classed as a precious metal, more valuable than silver or gold.

Because of fires Americans lost enough work time during 1946 to make \$20,000 autos.

A Xmas Serial  
Santa And The Good Boy

SYNOPSIS: The evil Mr. Sleek must prove to Santa Claus that Tom Clover is not a good boy. If he proves this then Santa Land will be destroyed and there will be Christmas again.

CHAPTER SEVEN  
Mr. Sleek Gives Tom a Test

Tom Clover ran all the way to his one-room house on the edge of town. He burst in and cried, "Oh, Mother, we HAVE to have a Christmas tree this year! The President is giving a fur coat and a dress, and shoes to the mother of the child with the prettiest tree!"

His mother smiled sadly. "How could we ever get the money, Tom?"

The boy stared gloomily out of the window. "Son," whispered his mother, "Christmas is for rich people. I guess. We must just pretend it's like any other time of year."

Then he picked up a shovel. "Don't wait up for me," he said and he went out of the house. He walked and he walked until he was far from the town. He kept on until he came to the forest and there he hunted for a tree.

By the light of the moon he found the fir—a proud little tree with a fine straight trunk and every bough perfect. He dug up the roots and tenderly lifted the tree and carried it the long way home.

Before the sun rose that day Tom had dug a deep hole and planted the proud little fir in his own front yard.

"But Tom," asked his mother, aching with pity, "How can we ever decorate it to win a prize?"

"That's easy," he replied. "I'm going to get a star—a real, honest-to-goodness star—to shine at the top of the fir."

Then before his mother would recover from her astonishment he tramped away.

He went to the great Hall of Science in the center of Mizoo where long bearded men with lynch-thick spectacles spent all their lives studying the skies and all that was in them.

"Tell me, please," said Tom politely to one of these men. "How much does it cost to buy a star?"

The man looked startled and coughed a little. Then he said, "Stars are free, boy. They are for every one."

"And how can I get one?" persisted Tom.

"Well son," faltered the scientist, "Stars are hundreds and hundreds of miles away."

"I thought maybe I could build a ladder," said Tom hopefully.

The man doubled up and Tom saw that he was choking with laughter. Then Tom turned and ran away from there and he was as angry as a small boy could ever be.

He went to the park and sat on a bench and sorrowfully kicked at the snow. By and by a man came and sat down beside him.

"Tell me what is the matter, son," he said. "You look sad."

He was a grey headed man with blood red eyes and a voice like syrup dripping off a spoon and if Tom Clover had known who he was he would have gotten up and run away as fast as he could go.

For it was Mr. Sleek in disguise. Mr. Sleek came to show Santa that Tom Clover was a bad boy. But Tom thought he was a kindly man and he said, "Oh, sir, I've got to get a star!"

"A star?" repeated Mr. Sleek and he nodded his head. "Now, isn't that strange! It just so happens I know exactly where a star is to be found!"

Tom jumped up and his eyes glistened with pleasure. "Oh, tell me, sir," he cried. "Do you suppose that I could get it?"

"Indeed," nodded Mr. Sleek solemnly. "I believe you could."

"Where? Where?"

"It isn't so far away but first, my boy, you'd have to bring me a gift."

"Tell me what?"

"Bring me," said Mr. Sleek and his eyes narrowed and filled with glee. "Bring me the wool from a red sheep's back."

"A red sheep!" gasped Tom, for well he knew that sheep are either black or white.

"There is such a thing," said Mr. Sleek, "but it would take a very brave and smart boy to find one and I don't suppose you are either brave or smart." He rose to leave.

Tom Clover snatched at his sleeve. "I'll get it!" he swore. "I'll bring it to you here tomorrow!"

"And if you don't," asked Mr. Sleek craftily. "Will that mean you are neither brave nor smart nor good?"

"Why," replied Tom in surprise. "I suppose it would."

And little he knew that, if it were so, Santa Land would vanish.

PA. XMAS BUYING NEAR NEW PEAK

Harrisburg, Dec. 12 (AP)—Christmas buying in Pennsylvania appeared well on the way toward ringing up a new high record.

Orus J. Matthews, state commerce secretary, said "there is every indication that Christmas spending this year in Pennsylvania will be considerably higher than in 1946. It probably will set a new record."

Matthews pointed to the current high and there never would be Christmas again.

Cadillac

Matchless

If Cadillac cars were built largely "by hand" in the Old World tradition, it is impossible to estimate what one might cost. Only when meticulous precision has been wedded to mass production, is it possible to bring so fine a car within reach of so many people. When you see the numerous Cadillacs on our streets and highways, you are witnessing a tribute to America's industrial supremacy.

If you are waiting for a new Cadillac—please be assured that every effort is being made to further production. Demand is so great, however, that some delay in delivery is still inevitable. But hold to your purpose! There is no substitute for a Cadillac.
